So, how do fund codes work?

- MILBILLS Appendices 1.1, 1.2 , 1.3
- Outgoing Fund Code messages
- Web Fund Code (Very Quick Overview)
 - Purpose
 - Demo
 - Web Fund Code Download eDAASINQ
 - Potential Future Enhancements

- Concept:
 - Combination of Signal Code, DoDAAC and Fund Code provides:
 - o A line of accounting for Interfund billing
 - o Identity of a bill-to party
- Signal Code:
 - Identifies both the ship-to party and the bill to party
 - Bill-to party may be:
 - o Requisitioning DoDAAC (Signal Code **A** or **J**)
 - o SUPPAD DoDAAC (Signal Code **B** or **K**)
 - o DoDAAC Identified by the Fund Code (Signal Code **C** or **L**)
- Fund Code Tables:
 - Fund Code to Fund Account Conversion Table
 - **Fund Code to Billed Office DoDAAC Conversion Table**

- Facilitate legacy and future processes
- Support Treasury Account Symbol (TAS) & SFIS/SLOA; add key data elements to SFIS Fund Code to Fund Account Conversion Table
- Enhance edits to improve financial processes; improve audit readiness
- Facilitate real time update of fund codes by Fund Code Monitors
- Allow for staging fund codes for future effective dates
- Replace email distribution of fund code updates with system-to-system synchronization

- DLA has completed this; working with other Components & Agencies

Potential Future DLMS Changes

- Synchronize FCA/FCB Tables for Signal Codes C/L: No FCA without an FCB
- Explore if Limit/Subhead = Sub Allocation for SLOA
- Remove Sub-Class as an unused data element
- No new multi-year fund codes citing Legacy Indicator = True
 - Migrate to discrete fund codes for each period of availability
 - Sunset existing Fund Codes with Legacy Indicator = True
 - Army is leading the way toward transition
- Address Foreign Military Sales use of Availability Type Code X (no year) fund codes for transactions with expiring appropriations
